

Gabriel Palomarez

Analytics Manager | Healthcare & Operations Analytics

Python, SQL, Power BI, Predictive Modeling, Team Enablement

Homestead, FL | gpalo23@icloud.com | 210-793-1187

LinkedIn: <https://www.linkedin.com/in/gabrielpalomarez>

Professional Summary

Analytics manager with extensive experience leading healthcare and operational analytics initiatives from problem definition through delivery. Hands-on expertise in Python, SQL, and BI tools, combined with a strong ability to guide analysts, define metrics, and translate data into decisions for executives and product teams. Proven success building scalable dashboards, predictive models, and analytics frameworks in regulated environments.

Core Technical Competencies

Data & Modeling

SQL, Python (Pandas, NumPy, scikit-learn, Seaborn), Feature Engineering, Predictive Modeling, Statistical Analysis

BI & Visualization

Power BI, Tableau, KPI Frameworks, Executive Dashboards, Insight Communication

Data Engineering (Supporting)

ETL/ELT Concepts, Data Validation, dbt (Working knowledge), Snowflake (working knowledge)

Leadership & Domain Expertise

Healthcare Operations Analytics, Cost Analysis and Risk Analysis, Compliance, Cross-Functional Collaboration

Professional Experience

Analytics Manager, Healthcare Operations

KPN Health Inc, Dallas, TX (Remote)

February 2021 – December 2025

- Led healthcare analytics initiatives supporting product, operations, and leadership teams, translating business questions into measurable KPIs and analytical models.
- Designed and maintained analytics pipelines to track software usage, operational performance, and customer engagement, improving visibility and reducing manual reporting.
- Built and owned executive dashboards in Power BI used to monitor utilization trends, cost drivers, and performance metrics.
- Guided analytics best practices across teams, including metric definition, data validation, and insight presentation.
- Partnered with engineering and product leaders to ensure analytics outputs aligned with business and compliance requirements.

Data Analyst / Product Analytics Lead

KPN Health Inc, Dallas, TX (Remote)

September 2018 – February 2021

- Led analytics development for a Medicare Care Gap tracking system, ensuring compliant, decision-ready reporting for healthcare providers.
- Designed automated dashboards using Excel and Power BI, improving reporting accuracy and eliminating manual consolidation.
- Conducted exploratory analysis to identify performance gaps, cost trends, and operational risks.

- Defined KPIs and analytical requirements for multiple analytics-driven product modules.

Analytics Manager, Network Operations

NextNav LLC, Sunnyvale, CA (Remote)

June 2012 – August 2018

- Managed analytics solutions supporting network performance and location accuracy across 21 markets.
- Analyzed large operational datasets to drive performance optimization, reducing system errors by 30 percent.
- Developed GIS-based analytics tools that reduced annual operating costs by \$50,000.
- Communicated insights to technical and business stakeholders to support strategic planning and optimization decisions.

Earlier Analytics & Technical Expertise

Led analytics-driven optimization initiatives across large-scale telecommunications environments, focusing on KPI development, performance monitoring, cost reduction, and system reliability. Applied statistical analysis and data modeling to guide technology transitions, vendor evaluations, and system upgrades.

Education and Professional Development

Bachelor of Science in Electrical Engineering | University of Texas, Arlington

Data Science & Analytics:

- Healthcare Data Science & Claims Analytics (Udemy, 2022)
- SQL, Tableau & Power BI for Data Analytics (Udemy, 2019–2020)
- Advanced Python Programming (Udemy, 2025)

Data Engineering & AI:

- AI Engineering & LLM Applications (Udemy, 2025)
- Python for Data Analysis & Visualization (Udemy, 2025)

Project Leadership:

- Agile & Scrum Project Management (Udemy, 2025)
